

Examiner-Initiated Interview Summary

Application No.

10/535,491

Applicant(s)

QUAN, HENGDAO

Examiner

Paul A. Zucker

Art Unit

1621

All Participants:

(1) Paul A. Zucker.

(2) Gregory T. Lowen.

Status of Application: allowed

(3) _____

(4) _____

Date of Interview: 23 March 2007

Time: _____

Type of Interview:

☒ Telephonic

☐ Video Conference

☐ Personal (Copy given to: ☐ Applicant ☐ Applicant's representative)

Exhibit Shown or Demonstrated: ☐ Yes ☐ No

If Yes, provide a brief description:

Part I.

Rejection(s) discussed:

N/A

Claims discussed:

1 and 2

Prior art documents discussed:

Kemp (US 3,907,913 09-1975).

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

See Continuation Sheet

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called to request authorization for an Examiner's Amendment to put the application in condition for allowance. The two problems addressed by this Examiner's Amendment are as follows: 1) Clm 1, as currently presented, reads on Kemp as set forth in the 102 rejection of record, and; (2) The word "any" in line 6 of claim 2 represents new matter. Mr. Lowen agreed to authorize an Examiner's Amendment of the following form to address these issues and put the case in condition for allowance:

Claim 1, line 2: The following phrase --, and wherein the porous aluminum fluoride on which the $\text{SbCl}_x\text{F}_{5-x}$ is supported does not contain hydrogen fluoride--has been inserted between the phrase "0 to 5" and the terminal period ".".

Claim 2, line 6: The word [any] has been deleted..
